Results

Data meeting the criteria you selected follows.

Total Pages: 37

Total Handlers: 163

Report Description

This report lists all facilities that satisfy the user selection criteria, showing basic information about each facility. The report also shows the standard suite of handler universes. Each facility in the list can be drilled down to detailed information about a facility (RCRA Site Detail Report).

Report Information

Name:	h_site_univ.rdf	Contact:	rcrainfo.help@epa.gov
Developed by:	EPA Headquarters, Office of Resource Conservation and Recovery	Tables Used:	hreport_univ5, bgm_basic, bwr_basic, bgm_waste_code, bwr_waste_code,
Deployed:	November 2002	Libraries:	bgm_on_site_treatment, howner_operator5, hnaics5, lu_state, hid_groups
Last Revised:	May 2012		none

Selected RCRA Sites Universe List Report

Report run on: December 6, 2013 - 7:20 AM

List of Handler Universe Abbreviations

Commercial TSDF	Commercial TSDF -- Indicates that the facility is a commercial operator of transporting, storing and disposing of hazardous waste.
Federal Generator	Federal Generator Status -- Indicates the regulatory status of the site as determined by the quantity and/or toxicity of hazardous wastes generated, stored or accumulated over a specified period of time.
Furnace Exemption	Smelting, Melting, and Refining Furnace Exemption -- Indicates that the facility with smelting, melting, and refining furnaces and processes hazardous wastes solely for metals recovery are conditionally exempt from regulation.
HSM	HSM -- Indicates that the facility manages hazardous secondary material(s) (e.g. spent material, by-product or sludge) that when discarded, would be identified as hazardous waste.
Importer	Importer -- Indicates that the facility is engaged in importing hazardous waste into the United States from a foreign country.
Lg Qty Universal Waste	Large Quantity Handler of Universal -- Indicates that the handler accumulates large quantities of federally regulated waste on site. The handler generates, in a calendar month, 1,000 kg (2,200 lbs.) or more of RCRA hazardous waste; or accumulates at any time, more than 1 kg (2.2 lbs.) of RCRA acute hazardous waste; or accumulates at any time, more than 100 kg (220 lbs.) of spill cleanup material contaminated with acute hazardous waste.
Mixed Waste Generator	Mixed Waste Generator -- Indicates that the facility is a generator or TSDF that handles waste mixed with nuclear source, special nuclear or by-product material.
Onsite Burner Exempt	On-Site Burner Exempt -- Indicates a facility that burns small quantities of hazardous waste in an on-site boiler or industrial furnace, in accordance with 40 CFR 266.108, is conditionally exempt from regulation for that activity.
Operating TSDF	Operating TSDF -- Indicates that the facility is a Treatment, Storage or Disposal facility subject to any type of enforcement. It then specifies the type of facility (L - Land Disposal; I - Incinerator; B - BIF; S - Storage; T - Treatment; H - Solid Waste Management).
Full Enforcement	Full Enforcement -- Indicates TSDFs that could potentially undergo a Compliance and Evaluation Inspection (CEI) to be evaluated for compliance with the applicable TSDF requirements found in 40 CFR Parts 264/265 and/or authorized State equivalents. It then specifies the type of facility (L - Land Disposal; I - Incinerator; B - BIF; S - Storage; T - Treatment; H - Solid Waste Management).
Recycler	Recycler -- Indicates that the facility is engaged in the recycling of hazardous materials.
Short Term Generator	Short Term Generator -- Indicates that the facility is a short term or one time event generator and not generating from ongoing processes.
State Generator	State Generator Status -- Indicates the regulatory status of the site in view of implementing the State's "broader in scope" or "more stringent than" rules. Although an implementing State might use terms that differ for their generators these terms would be translated to match the Federal regulatory term.
Subpart K/College	Subpart K/College or University -- Indicates facility has opted into the subpart K laboratory rule as a college or university.
Subpart K/Hospital	Subpart K/Teaching Hospital -- Indicates facility has opted into the subpart K laboratory rule as a teaching hospital.
Subpart K/Non-profit	Subpart K/Non-profit Research Institute -- Indicates facility has opted into the subpart K laboratory rule as a non-profit research institute.
Subpart K/Withdrawal	Subpart K/Withdrawal from Rule -- Indicates facility has withdrawn from the subpart K laboratory rule.
Transfer Facility	Transfer Facility -- Indicates that the facility transfers hazardous waste.
Transporter	Transporter -- Indicates that the facility is engaged in the off-site transportation of hazardous waste. ("V" indicates that the facility is in this universe).
Underground Injection	Underground Injection Control -- Indicates that the facility disposes of wastes by deepwell underground injection.
Used Oil Off-Spec Burner	Used Oil Off-Specification Burner -- Indicates that the facility burns off-specification used oil.
Used Oil Fuel Marketer	Used Oil Fuel Marketer -- Indicates that the facility is a marketer who directs shipment of off-specification UO to off-specification UO burners.
Used Oil Spec Marketer	Used Oil Specification Marketer -- Indicates the facility is a marketer who first claims the used oil meets the specification.
Used Oil Processor	Used Oil Processor -- Indicates that the facility is a processor of used oil.
Used Oil Re-refiner	Used Oil Re-refiner -- Indicates that the facility is a re-refiner of used oil.
Used Oil Transfer Facility	Used Oil Transfer Facility -- Indicates that the facility is involved in the storage of used oil so the oil can be transported by other handlers.
Used Oil Transporter	Used Oil Transporter -- Indicates that the facility is a transporter of used oil.
UW Destination Facility	Universal Waste Destination Facility -- Indicates that the facility treats, disposes of or recycles universal wastes on site. No minimum universal waste volume applies.
